North American Laminating & Converting Company, Inc.

About N.A.L. Company, Inc.

N.A.L. Company, Inc. produces and converts laminated paper including scored inter-leaving, corner protectors and paperboard used in the worlds of food, furniture, appliances, art and other various industrial packaging applications.

N.A.L. Company, Inc. has been growing in Mt. Orab, Ohio since 1972, increasing its' capacities for production and warehousing at an exponential rate. In addition to its' corner protector and chipboard lines, N.A.L. Company, Inc. provides custom rewinding, ream cutting, sheeting, laminating and lining services.

Custom Packaging Solutions

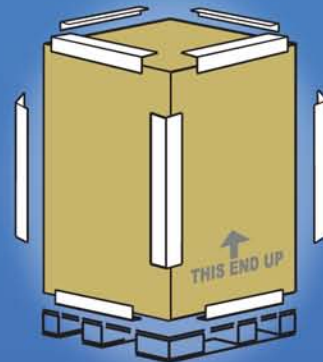

When it comes to packing your product, N.A.L. Company, Inc. has the experience to help ensure your products arrive intact and undamaged while using the most cost-effective, protective packaging products possible.

Corner protectors consist of multiple ply's of laminated recycled paperboard formed into a rigid 90 degree angle. Corner protectors are used for in-transit protection, strapping protection, load stabilization and increased stacking strength inside and out of boxes.

Paperboard Products/Chipboard Pads consist of single ply or multiple ply laminations of 100% recyclable paperboard commonly used for liners, pallet tops and bottoms, dividers, slip sheets, cushions, and die cut items.

Integrated Printing

Our integrated printing capability allows for the inclusion of your company logo, slogan, instructions, product id's, etc. along the edge of each custom corner board. We regularly stock: *Made With Pride in America*, caution stripes, *Fragile*, *Do Not Stack*, *Do Not Double Stack*.

Specialty Conversions

Using fine paper, all types of paperboards, paper backed foils, cloths, velours, SBS, Poly-coated surfaces, clay-coated boxboard and other laminated substrates; N.A.L. Company can provide the packaging solution you require.
