## PolyChip

Poly-coated Chip Sheets - Poly1Chip & Poly2Chip

Grease and moisture can wreak havoc on packaging. In applications where a barrier is critical, turn to Poly Chip.

Natural fiber chip board core with a poly coating applied to 1(Poly1Chip) or both sides (Poly2Chip) creating a moisture barrier.

Sustainability- Made with recycled fiber.

Poly2Chip .020 and .024 is our stock caliper.  
Poly1Chip available at request.

### BENEFITS:

Designed and manufactured to be used as a substitute for plastic sheets in many instances.  
100% post-consumer content

Recyclable  
Consistent moisture coating, product color and caliper.

### TOLERANCES:

+/- .003 caliper  
+/- 1/8" width and length

Consistently coated  
Coated available on 1 or 2 sides

### Applications:

The most common application is used as moisture and grease barriers for pallet tops and bottom, or tier sheets. It has been used in various fields such as Frozen foods, Refrigerated foods, military applications, bulk food stores, automotive, bulk packaging manufacturers, outside storage, and many more.
